### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ashley Ott on 4/28/2006.

The application has been amended as follows:

15. A machine-readable medium that stores instructions on physical storage device, which instructions when executed by at least one machine, cause the at least one machine to perform operations comprising:

- displaying first page having a first form and a hidden form;
- receiving user-provided data into the first form of the first page;
- displaying a second form of a second page when the second form is requested via the first page;
- receiving user-provided data into the second form of second page;
- copying the data from the second form of the second page to the hidden form of the first page without posting the data from the second form to a server; and
- posting the data from the first form and the hidden form to the server when the first page is submitted.

Art Unit: 2624

2. The following is an examiner's statement of reasons for allowance: The cited prior art fails to teach claimed invention alone or in a combination.

The invention as claimed is a method and system of displaying first form and hidden form and receiving user provided data to first form. A second form is selected from first form that also receives user provided data, which is copied to hidden form **without posting the data from second form to server**. The cited prior art teaches form filling and accepting user provided data on multiple forms but fails to specifically teach copying data from second or third form to hidden form without posting data from second or third form to server as claimed. Therefore the invention as claimed is allowable over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sanjiv D. Shah whose telephone number is (571) 272-4098. The examiner can normally be reached on M-F 9-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew Bella can be reached on (571) 272-7778. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
